Safety Spectacles Anti-fog with Clear Single Lens Model SHG-01

Safety Spectacles Anti-fog with Indoor-outdoor Single Lens Model SHG-02

SHG-01

SHG-02

- Safety spectacles with black nylon frame adjustable side arms and one piece ocular.
- Optical class I, against low energy impact F as defined in EN166:1995.
- Soft nose pad for all day comfort.
- Free for black nylon cord.
- ANSI Z87+

Extra For Model SHG-02

- The Indoor/Outdoor lens had additional UV absorbers, and a light gold mirror coating, in order to reduce glare and visible light transmission. This lens is a compromise for individuals moving from bright to dark environments.
